

# International Consortium on Manual Therapies

## Conference 2022

A science-based interdisciplinary research symposium for practitioners and researchers.

### Call for Abstracts

**Submissions opens: 2021.August.01      Deadline: 2022.March.01**

<b>Abstract Submission Guidelines.</b>	<b>1</b>
<b>Abstract Scoring and Presentation at the Annual Meeting.</b>	<b>2</b>
<b>An abstract example.</b>	<b>4</b>
<b>An abstract example with a table.</b>	<b>5</b>
<b>An abstract example with a figure.</b>	<b>6</b>

#### **Abstract Submission Guidelines.**

1. Abstracts will be reviewed and accepted for meeting participants only. If you are considering submitting an abstract, register for the conference to make sure you will be able to present your research if your abstract is accepted. You may register online at  
<https://www.icmtconference.org/registration/>
2. Abstracts should be submitted only if convincing results have already been obtained and interpreted. Abstracts solely describing planned projects should not be submitted. If the findings primarily rely on group-level statistics, the reported effects ideally would be derived from a sample size sufficiently powered for the respective statistic. However, pilot studies may be submitted if novel, even though potentially underpowered. A figure or a table showing results is helpful to the Reader [and Reviewer]. If the abstract focuses on a software tool, it must present a novel tool, features, or application.
3. Research presented and/or published prior to 2018.06.01 will not be accepted or reviewed.
4. Please include sufficient detail in your methods and results sections to enable Readers (and Reviewers) to gain a clear understanding of what data have been collected and what results have been observed. For example, where appropriate, please include information on data acquisition, data processing, quantitative results and statistics, etc. Specifically, if the study involves data from human or non-human subjects, the number of tested subjects and their demographics (sex, age) should be reported. When reporting results, effect sizes should be included wherever possible.
5. Enter your abstract into the online abstract submission system as you would like it to appear on the ICMT Meeting program, schedule, and other publications.

# International Consortium on Manual Therapies

## Conference 2022

A science-based interdisciplinary research symposium for practitioners and researchers.

6. Abstracts should be formatted to include the following:
  - a. Title — **all caps**
  - b. Authors and Affiliations — **maximum of 40 characters per author**
  - c. Background, Materials and Methods including statistical approach, Data, Conclusion, IRB assurances, funding source (if any) — **300-word limit or equivalent character limit (1500 characters, including spaces)**
  - d. **Times New Roman, 11-point font**
  - e. Figures (**optional / maximum 1**) — 1 table or 1 image in PDF
  - f. Must submit in **PDF format** that does not exceed 1 page, including table or image (no other formats accepted)
7. **Keywords/categories:** Abstracts will be accepted in the following categories: **Clinical, Basic Science, Educational**. You are also able to include up to 3 keywords for your abstract. Selection of the subject category helps to determine the expertise of the Reviewers who will score the abstract. The chosen category also helps place the abstract in a section with similar research, thereby reaching an optimal audience at the meeting.
8. **References:** No references.
9. **Meeting Registration:** You are not required to register for the ICMT Meeting prior to submitting an abstract; however, if your abstract is selected for poster presentation, the presenter of the abstract must register for the meeting. You may register online at <https://www.icmtconference.org/> As previously stated, *due to the nature of this conference, seats are limited! Early registration is highly encouraged!*
10. **Presentation Release:** By submitting your abstract, if accepted, you grant permission for ICMT to distribute the presentation in any format, including video, audio print and electronic text through social media channels or other electronic media and on the ICMT website.

### Abstract Scoring and Presentation at the Conference.

1. Every abstract is reviewed by two or more peer reviewers using a 4x3 scoring rubric. Specifically, four areas will be scored: 1) relevance of the study to the conference's objectives (see: <https://www.icmtconference.org/>), 2) the novel nature of the study/topic, 3) the overall quality of the abstract, and 4) the adherence to the directions posted for abstract submissions. Each area will be scored using a three-point system:

3 - Meritorious
2 - Sufficient
1 - Insufficient

The possible outcomes of these reviews are: 1) Accepted for poster, 2) Reject.

# International Consortium on Manual Therapies

## Conference 2022

A science-based interdisciplinary research symposium for practitioners and researchers.

2. **Abstract Rejection:** Abstract decisions are based on the recommendation of assigned peer reviewers and the recommendations of the Program Committee. The most common reasons for rejection are incompleteness or lack of detailed methods or results that enable it to be reviewed adequately. The abstract should describe only work (experiments and analysis) that has *already been completed*, not work that is planned for the interval between abstract submission and the conference; hence, statements such as "data will be collected" or "data will be analyzed" will be grounds for rejection.
  3. **Poster Presentations:** Poster presentations will occur on day four of the meeting, Saturday, 2022.05.21. In order to fit on the poster boards, **digital posters cannot be bigger than 9600 px (48 in or 121.92 cm) wide x 7200 px (36in or 91.44 cm) high and can not exceed 3MB in size.** Abstracts accepted for poster and oral presentation will require paid attendance at the face-to-face meeting. You may register online at <https://www.icmtconference.org/>
  4. **Poster Video:** Posters will be hung for the entire conference unless withdrawn. Poster presenters will be required to attend the poster session on Saturday, 21 May 1015-1200 EDT (1615-1800 CEST). See the schedule for reference. To help attendees learn about your poster and encourage attendance for your formal presentation, a video of no more than one minute highlighting your research question and important or novel aspects of your work will be posted by your poster throughout the conference. Research results and conclusions should not be included in your video.
  5. **Final Materials Due:** Digital posters and videos submissions are required to be emailed to: [posters@icmtconference.org](mailto:posters@icmtconference.org) by **2022.April.15** for integration activities.
  6. **Poster Award:** ICMT is committed to the mentoring and career development of trainees\* during this inaugural meeting. The most meritorious posters will be awarded in the following categories:
    - Best Basic Science
    - Best Clinical
    - Best Educational
    - *Awaiting Sponsor*
    - *Awaiting Sponsor*
    - Best Overall Professional
    - Best Overall Student/Trainee
- \*Trainees are classified as those who have not yet completed a terminal degree, certificate, or diploma in the relevant profession(s).

## An abstract example.

### DONEC DIGNISSIM JUSTO QUAM, TRISTIQUE TINCIDUNT ORCI SCELERISQUE CONDIMENTUM.

Sed, Consequat<sup>1</sup>. Lectus Malesuada<sup>2</sup>. Duis a velit aliquet, tristique ligula id, vehicula orci. Donec ut blandit erat. Duis vitae molestie mi. Donec tortor ligula, elementum a erat sit amet, pharetra pharetra elit. Quisque non posuere nisi.

Praesent accumsan arcu Sed Vestibulum Sodales[1], Orci Dolor pellentesque Mi, quis efficitur Mauris Justo.[2]

**Background.** Lorem ipsum dolor sit amet, consectetur adipiscing elit. Donec dignissim justo quam, tristique tincidunt orci scelerisque condimentum. Duis a velit aliquet, tristique ligula id, vehicula orci. Donec ut blandit erat. Duis vitae molestie mi. Donec tortor ligula, elementum a erat sit amet, pharetra pharetra elit. Quisque non posuere nisi.

**Methods.** Sed aliquam pretium tellus, eu interdum erat porttitor ut. Sed a accumsan massa. Nam varius sapien id tincidunt pulvinar. Etiam consequat ante sit amet justo efficitur, at euismod mauris imperdiet. Nunc ac massa ac nisi consectetur posuere aliquam sollicitudin erat. In suscipit magna nec nulla ornare, et consectetur justo posuere.

Nulla consectetur enim et velit elementum ullamcorper. Phasellus ac odio sem. Vivamus dui est, auctor semper eleifend id, lobortis vel lectus. Vivamus efficitur arcu mauris, at molestie eros hendrerit vel. Integer commodo ante quis tellus consectetur tristique.

**Results.** Aliquam pretium fermentum quam, quis aliquam augue aliquam eu. Praesent tincidunt dolor a libero ornare ullamcorper ut eget risus. Etiam condimentum lectus orci, tincidunt convallis sapien consectetur eu. Sed quam tortor, eleifend sit amet urna eget, ornare tempus nisi. Proin vulputate aliquam mauris at mollis.
